

Watch Over Me

Please watch over me
I'm not sure where I should be
if I should ever tumble down
I want you to be around
all my bruises you can kiss
I'll let you know if there's one you miss
and if I don't understand
please explain and hold my hand
just don't forget to give a hug
then tell me that we'll snuggle-bug
and when you tuck me in at night
don't forget to say sleep tight
